

## Deep K12 Experience

Integrity Networks, Inc is a premier technology company serving large enterprises in the commercial and government sectors. Based in Seattle, WA. Integrity also operates permanent offices in Alaska and Hawaii.

Integrity is tremendously experienced working on, in and for schools. We deeply understand the K12 environment - from new construction technology planning and implementation, to working in occupied schools in session and helping educators implement and understand technology that assists in the learning process. Our past performance includes completing projects in 60+ school districts across the United States ranging from multi-million dollar roll-outs to \$500 quick installs. We have also been successfully supporting partners for many years within the E-Rate Program.

## Core Competencies

- |                                  |                               |                        |
|----------------------------------|-------------------------------|------------------------|
